MANDYA DIVISION.

Abstract Notification dated 14th July 1938.

The attention of the public is hereby invited to the advertisement published on pages 1211-1216, Part VI of the issue dated 21st July 1938 in the *Mysore Gazette*, calling for tenders for constructing a "Travellers' Bungalow" at Maddur.

The last date of receipt of tender is up to 12 noon on 3rd August 1938, earnest money being Rs. 700.

Notice dated 22nd July 1938.

1. Sealed tenders will be received at the Office of the Executive Engineer, Mandya Division, up to 12 NOON on 26th August 1938, for constructing the Deputy Commissioner's quarters at Mandya.

2. Tenders in the prescribed form obtainable from the Office of the Executive Engineer, Mandya Division, should be addressed to the Executive Engineer, Mandya Division, in a sealed cover and superscribed as "Tender for Constructing 'Deputy Commissioner's Quarters at Mandya." The name of the tenderer should also be superscribed on the top of the cover.

3. Each tender must be accompanied by Treasury challan for a deposit of Rs. one thousand (Rs. 1,000) in cash or Government Promissory Notes or Mysore Government Bonds, duly endorsed at face value or market value, whichever is less, as earnest money. On acceptance of tender the successful tenderer will have to make a security deposit up to 10 per cent of the estimated value of the work. The earnest money of the successful tenderer will be retained as security deposit for due fulfilment of the contract. Such a deposit in cash will not carry any interest.

4. The tenders will be opened in the presence of such tenderers who wish to be present, on 26th August 1938 at 2 P.M. The final acceptance of the tender will rest with the Superintending Engineer, who does not bind himself to accept the lowest or any tender; or to assign any reason whatever for the rejection of any.

5. The name of the successful tenderer will be posted on the Notice Board in the Executive Engineer's Office in due course. Within eight days of the acceptance of the tender, the successful tenderer will be required to execute an agreement in the departmental Schedule Contract Form, for the due fulfilment of the contract, and for the execution of all items of work in accordance with the Bombay specifications (1931) of Mysore Public Works Department Specifications.

6. Failure to comply with the condition 5 above, or to agree to carry out the work in accordance with the specifications and agreements in force will entail forfeiture of the earnest money.

7. The earnest money of rejected tenders will be returned on submission of the receipt originally granted, along with an application to the Executive Engineer.

8. Copies of contract documents, schedules and drawings may be seen at any time at the Executive Engineer's Office, Mandya, on all working days between 11 A.M. and 5 P.M. and may be obtained from that officer on payment of Rs. 10.

9. Specific rates should be given for each item in the schedule accompanying the tender and the rates should be in rupees, annas and pies and expressed in words and figures. Tenders offering a percentage reduction on the estimate amount will be rejected.

10. Any rates or lumpsum amounts for the items not called for, if tendered by the tenderer, will not be taken notice of. The rates for such items may be entered in a separate schedule with date and reasons for the same.

11. No alterations which are made by the tenderers in the tender form in the nomenclature of the items of work will be recognised and if corrections are made, the tenders are liable to rejection.

12. There should be no alterations or erasures in the tenders in the rates of items and any corrections made in the rates should be attested to, and the number of corrections, if any, in each page noted at the foot of the same by the tenderer.

13. No reference should be made to the Public Works Department schedule of rates.

14. In the event of the tender being submitted by a firm, it must be signed separately and severally by each member thereof, or in the event of absence of any partner, it must be signed on his behalf by a person holding power-of-attorney authorising him to do so.

15. When once the rates tendered have been accepted, they will not be revised under any circumstances. In regard to items of work not tendered, the rates for the same will be calculated by the Executive Engineer, on the basis of current rates for materials and labour with a contractor's profit of 5 per cent as may be approved by the Superintending Engineer. This shall be final and legally binding on the tenderer.

16. The quantities given in the schedule are only approximate and the drawings shown to the contractor are only tentative and are liable to alterations, omissions, deductions or additions at

the discretion of the Executive Engineer or his representative. The tendered rates will hold good for any quantity, whether higher or lower than those given in the enclosed schedule.

17. The works should be completed and handed over in a tidy condition to the Public Works Department by the end of April 1939, failing which the Executive Engineer may, at his discretion, levy a penalty, which will ordinarily be calculated at 12 per cent per annum on the total outlay as liquidated damages for non-fulfilment of contract, and will be recovered from the contractor's outstandings for the period exceeded by him beyond the time fixed and until the work is completed and handed over.

18. In all matters of disputes of any kind not specially provided for in the agreement or of rates, penalties, measurements, quality of work, etc., the decision of the Chief or the Superintending Engineer shall be final and legally binding.

19. No claim for damages for delays caused by officers of the department in the execution of the work will be considered, whatever may be the reasons for such delays. Contractors should bear this in mind when tendering for the work. Extension of time due to delays caused by the departmental officers will, however, be considered on the merits of each case.

20. The contract should not be sublet.

21. All materials, tools and plant and machinery that will be supplied by the Executive Engineer in the interest of the work shall be accepted by the tenderer at the rates fixed by the Executive Engineer. The tenderer will pay the hire on tools and plant and machinery as per rules from the date of taking over of such machinery, tools and plant from the Stores to the date of return thereto, the dates considered being the dates of acknowledgments of the vouchers in each transaction.

22. The contractor should arrange for the payment of royalty and tolls.

Note.—(*a*) The contractor should at his own cost—

(1) Provide rods, stakes, ropes and labour required in setting out the works.
(2) Provide all necessary scaffolding, centering, labour and appliances for hoisting.
(3) Provide power mortar mills and sheds, to keep materials under cover and also for workmen.
(4) Arrange for protecting work during inclement weather.
(5) Supply requisite temporary lights, water cisterns, water pumps and hoses, sieves, parahs, shoring, strutting and other requisite protective appliances during the progress of the work.
(6) Provide his own machinery, pipes, etc., for water supply, and supply all water required for work and workmen and shall provide temporary latrines and drains.
(7) Clean away all dirt, rubbish, superfluous materials and debris as they accumulate.
(8) Provide arrangements for pumping and baling of water from excavations and foundations wherever and whenever necessary with his own pumping apparatus including necessary leading drains, slump pits, etc.
(9) Afford facilities to any other parties employed upon the work by the P. W. D., so that their work may proceed during the progress of the contract, and give such persons the use of ordinary scaffolding and ladders.
(10) The contractor is responsible for all accidents to workmen, etc., on the work and he must take precaution against all risk of accidents and if necessary provide for the same by Insurance at the proper time.

Note.—(*b*) It is the business of the contractor to make his own arrangements for quarries and supplies of materials.

23. Only Mysore Teak selected and purchased from Mysore Government Depot should be used.

Abstract for constructing the Deputy Commissioner's Quarters at Mandya.

No.	Items of work	Unit.	Estimated rate	Quantity	Total cost
			Rs. a. p.		Rs. a. p.
1	Earthwork excavation for foundation in all soils except hard rock and filling in basement and the foundation trenches, including watering and consolidation and removal of any extra soil, if any beyond a distance of 300 feet	C.yd.	0 5 0	220	...
2	Broken granite jelly concrete in lime mortar (2 of jelly and 1 of mortar) for foundation with tamping in layers of not more than 6" thick and watering for 2 weeks, etc., complete	C.ft.	0 4 0	2,031	...

No.	Items of work	Unit	Estimated rate	Quantity	Total cost
			Rs. a. p.		Rs. a. p.
3	Size stone in mud with bond stones 6 feet apart, etc., complete for foundation	C.ft.	0 4 0	3,314	..
4	Size stone in mud with bond stones 6 feet apart, including dressing all quoins neatly to 2" wide, etc., complete for basement	,,	0 4 6	2,149	..
5	Burnt stone slabs 6" thick and fixing in lime mortar over basement of outer walls and for steps including 2 line dressing on exposed faces, and one line dressing on all other surfaces, and pointing the joints in cement mortar 1 : 3, etc., complete (Net thickness of slab to 6" after dressing)	S.ft.	0 12 0	1,035	..
6	Burnt brick in mud	C.ft.	0 3 3	6,362	..
7	Burnt brick in lime mortar (1 : 2½) in superstructure, including watering for 2 weeks	,,	0 4 0	1,940	..
8	Arch work with burnt brick in lime mortar (1 : 2½) including watering for 2 weeks	,,	0 6 0	246	..
9	Burnt stone lintel and bearing slabs 6" thick over doors and windows, etc., one line dressed on all surfaces and fixed in lime mortar, etc., complete.	S.ft.	0 9 0	330	..
10	Providing reinforced cement concrete (R. C. C.) lintels slabs with granite jelly ½" to ¾" size (1 : 2 : 4) and with necessary reinforcements including watering for 2 weeks, etc., complete over treble windows	C.ft.	2 8 0	30	..
11	Partition walls with ordinary burnt bricks in cement mortar 4½" thick with hoops iron, or exmet reinforcement in every third course, including plastering with lime mortar, and white washing, etc., complete (thickness of the wall including plastering to 6")	S.ft.	0 8 0	376	..
12	Providing rolled steel girders of British standard specifications Tata's tested, or Dorman Long's make, including hoisting and fixing in position with cement concrete in walls, one coat of anti-corrosive paint and boxing with cement mortar and terrace bricks and reinforced with galvanized steel tex, laid from above, and plastering with finely ground mortar, etc., complete	Cwt.	16 0 0	62·85	..
13	Roofing with reinforced brick concrete terrace (R. B. C.) cement concrete to consist of granite batani jelly (1 : 2 : 4) with necessary reinforcements for spans varying from 5' to 10' for the usual roof loads as per specifications (bricks to be placed on edge only in all cases) including kappi in quick lime minimum thickness 3" with the usual slope for draining water, and 2 courses of flat tiles in chunam mortar on top, and plastering top and bottom of terrace with finely ground lime mortar and 2 coats of bitumen emulsion on top, and white washing to ceiling including all scaffolding and centering charges, etc., complete	Sqr.	85 0 0	42·40	..
14	Teakwood doors with frames 3½"×5" and without bottom sills, shutters 1½" thick, fully panelled, including superior brass hasps and staples and handles with back bolts fixed in the same, strong steel barrel lower bolts of suitable size, and with 3 sets of steel butt hinges including necessary iron clamps for doors frames and with 2 coats of Dulex varnishing inside and outside, etc., complete	S.ft.	1 12 0	570	..
15	T. W. windows with frames 3½"×5" with rectangular ventilators at top, shutters 1½" thick in 4 pieces, bottom half panelled, and top half glazed with ground glasses ⅛" thick and of approved quality, with ¾" dia. iron bars placed 3" apart vertically				

No.	Items of work	Unit	Estimated Rate	Quantity	Total cost
			Rs. a. p.		Rs. a. p.
	and a flat iron bar of $1\frac{1}{2}'' \times \frac{3}{8}''$ placed horizontally in the middle with holes made therein for vertical bars to pass through and with butt steel hinges, iron hooks, brass rings 2" dia., wooden cleats of stoppers, etc., including iron clamps for frames and with 2 coats of Dulex varnishing for inside shutters and 2 coats of green painting outside, etc., complete as per design	S.ft.	2 0 0	348	
16	T. W. rectangular ventilators with frames $3'' \times 4''$ cross iron bars of $\frac{3}{4}''$ dia. shutters $1\frac{1}{4}''$ thick fixed with ground glasses $\frac{1}{8}''$ thick of approved quality, necessary rings, ropes, pivots and iron fixtures, including 2 coats of Dulex varnishing inside and green painting outside, etc., complete	S.ft.	1 8 0	88	
17	Providing and fixing R.C.C. perforated fret-work ventilators as per design to be furnished	S.ft.	1 8 0	37	
18	Providing and fixing semi-circular T. W. glazed fanlights over doors and windows, shutters $1\frac{1}{4}''$ thick fitted with approved quality ground glasses $\frac{1}{8}''$ thick and with $\frac{3}{4}''$ dia. iron bars, pivots, and iron fixtures including 2 coats of Dulex varnishing inside, etc., complete	S.ft.	3 0 0	76	
19	Flooring with cement concrete $1\frac{1}{2}''$ thick with granite batani jelly 1 : 2 : 4, on 4" of lime concrete with granite jelly and $\frac{1}{2}''$ cement plastering with topping of red coloured water-proofed cement $\frac{1}{8}''$ thick and finished with ironite $2\frac{1}{2}$ lbs. per square and cut to required size of panels, or tiles wherever required, including asphalt expansion joints 6 feet apart and rounding of all corners, etc., complete	Sqr.	25 0 0	32.60	
20	Paving with burnt stone slabs 4" thick, cut to 18" square, 2 line dressed and laid diagonally on 3" granite jelly concrete in lime mortar and cement pointing, etc., complete	Sqr.	65 0 0	3.31	
21	Plastering with chunam mortar for brick walls after raking up the joints including rounding of all projecting and rending corners with cement mortar 1 : 4 for a width of 3" on both sides, etc., complete	Sqr.	3 8 0	119.86	
22	White and colour washing 2 coats, complete	Sqr.	0 4 6	119.86	
23	Deep cement pointing to basement (with cement mortar 1 : 3) and cutting lines including raking up the joints 1" deep, etc., complete	Sqr.	3 8 0	6.56	
24	Providing reinforced cement concrete round pillars with granite batani jelly (1 : 2 : 4) and with necessary reinforcements for portico and open court verandah 8' 4" high 12" dia. at bottom, tapering to 11" at top, including base, capitals and necessary fluting and ornamentations and plastering with finely ground lime mortar, etc., complete as per design to be furnished	Each	25 0 0	10	
25	Skirting course with $\frac{1}{2}''$ thick cement plaster (1 : 4) and 9" high surface finished with $\frac{1}{8}''$ thick red coloured cement mixed with water-proof cement including top beading, etc., complete as per design at bottom of interior walls	R.ft.	0 2 6	608	
26	Architectural finish		L. S.		
27	Parapet wall with burnt brick in lime mortar $1\frac{1}{2}'$ to 2' high, 9" thick including receding offsets at top and plastering and white washing, etc., complete as per design	R.ft.	1 0 0	407	
28	Providing and fixing R. C. C. perforated fret work panels in parapet wall as per design to be furnished and neatly finished, etc., complete	S.ft.	1 8 0	81	
29	Providing and fixing rain-water-down-pipes 4" dia. made of galvanized iron plate (24 gauge thickness) and made to required shape, etc., complete	R.ft.	0 7 0	460	

No.	Items of work	Unit	Estimated Rate	Quantity	Total cost
			Rs. a. p.		Rs. a. p.
30	Coving for ceiling with 5 or 6 off-sets, with finely ground lime mortar including rounding at corners with cement mortar, etc., complete as per design to be furnished	R.ft.	0 5 0	340	..
31	Paving with burnt stone slabs 1" thick one line dressed on 6" of sand or gravel bed including cement pointing, etc., complete	Sqr.	55 0 0	5/40	..
32	Providing cement concrete drains in the open court and alround the building if necessary, with lead off drains and gratings, etc., complete				
33	Providing smoke chimneys and ovens, etc., in kitchen and bath-rooms		L. S.		
34	Providing necessary washout pipes in all rooms and sinks in kitchen and bathing and bath-rooms, etc., wherever necessary		L. S.		
35	Electrical installations		L. S.		
36	Water supply		L. S.		
37	Latrine		L. S.		
38	Motor garage, Stables and cow-shed, complete		L. S.		
39	Temporary establishment (one maistry on Rs. 25 and one servant for 8 months)		L. S.		
40	Sundry and unforeseen items		L. S.		
41	Clearing site and levelling ground		L. S.		
42	Architects fees at 1½ per cent on the total cost of items 1 to 34		L. S.		

M. V. KRISHNASWAMY IYENGAR,
Executive Engineer.

CHITALDRUG DIVISION.

Abstract Notification dated 11th July 1938.

Attention of the public is invited to the detailed Notification in the *Mysore Gazette*, Part VI, pages 1174-1175 of 14th July 1938 calling for tenders for "Protective Works to Kallahalli Tank, Register No. 22 of Chitaldrug Taluk." The last date of receipt of tender is 6th August 1938 and the earnest money required is Rs. 180.

K. SUBBA RAO,
For *Executive Engineer.*

MISCELLANEOUS DEPARTMENTS

OFFICE OF THE INSPECTOR-GENERAL OF POLICE IN MYSORE, BANGALORE.

Notice No. T. C. 295—37-38, dated 19th November 1937.

The public are hereby informed that an Avery's Weigh-bridge to weigh motor vehicles is erected in the Office of the Inspector-General of Police in Mysore, Cenotaph Road, Bangalore City, and that motor vehicles brought for weighment will be weighed on payment of a fee of Rs. 10 for each weighment. A certificate of weighment will invariably be issued, with each weighment so made.

F. A. HAMILTON,
Inspector-General of Police.

THE MYSORE HORTICULTURAL SOCIETY, LAL-BAGH, BANGALORE.

Abstract Notice dated 14th July 1938.

The attention of the public is invited to this office Notice dated 14th July 1938, regarding the Garden Competition and Horticultural Show which will be held on 2nd, 6th and 7th August 1938, respectively, published in page 1182, Part VI of the *Mysore Gazette*, dated 14th July 1938.

L. S. DORASAMI,
Honorary Secretary.
